7.1.5 ENVIRONMENTAL POLICY

Internal Quality Assurance Cell (IQAC)

Introduction

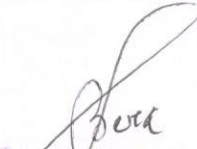

The College's environmental policy are designed to give a broad picture of the College's strategy for reducing the environmental effects of its operations and activities while ensuring sustainable use of the resources at hand. The policy statement outlines how the institution will promote resource sustainability at the community level, both inside and beyond the college grounds, and pursue environmental best practices. It outlines the principles, identifies the top priorities, and offers guidelines for managing, implementing, and assessing the college's environmental initiatives. Its objective is to cut back on the consumption of energy and raw materials, which could undermine the sustainability initiatives being implemented at the college level. This policy will help improve the environment for future generations while also communicating the administration's goals and objectives to college Teachers, students, and stakeholder. Sevayatan Sikshan Mahavidyalaya endeavours to protect the environment by maintaining a green cover, eco-friendly campus, and creating an institutional awareness among stakeholders to make the earth a peaceful, comfortable and prosperous habitat.

OBJECTIVES

- To raise awareness about green and clean campus among the students.
- To promote environmental protection activities and evaluate them.
- To encourage the use of alternative energy sources (clean energy, renewable energy, etc.)
- To adding value to the curriculum through real-world application.
- To lessen the utilization of resources.
- Measures to save costs and make money by using fewer resources.
- Help student teachers develop their environmental ethics and environmental values.
- Show prospective teachers how to use the ideas of environmental audits and sustainable development.
- Include sustainable development in all teaching methods.
- Interact with international environmental networks and exchange information with them.
- Implement carbon neutrality initiatives at all levels of the community and school.

Implementation

1. The college observe various days on importance regarding environmental e.g. Van Mahotsov, Environment day, earth day etc.
2. The College will attempt to aware its personnel and develop knowledge of environmental related issues and effects of its activities among academic staff, students, and other users&increased environmental promotional events on campus to raise awareness.
3. The college's respective committees will formally monitor the work done on sustainability projects/initiatives, measure their progress, and report on their accomplishments.
4. Identify reclaimable land within the campus with green cover
5. Actively collaborate with local groups in the areas of environment, energy efficiency, and sustainable development by engaging in communication with government agencies, municipal corporationsPromote environmental assessment initiatives.
6. Raise awareness about keeping the campus clean and green.
7. Establish sustainable practises on campus and among stakeholders.
8. Ensure the long-term viability and environmental protection of the organisation.
9. Practical experience which enriches the curriculum
10. Instilling in young people an environmental ethic and value system
11. Conduct audits to identify areas for improvement and make recommendations.
12. Teach sustainable development to students from all disciplines.
13. Promote sustainable development research and knowledge dissemination,
14. Green campuses and support local sustainability efforts, and
15. Engage and share information with worldwide networks.
16. Establishment of an environment/green committee to oversee eco-friendly projects on campus and in the surrounding area.
17. Review the Policy at least once a year.
